

TRA-SER[®] Premier

Material Pricing at Your Fingertips!

If you ever need to look up pricing or product information on electrical products, you need **TRA-SER Premier**. Featuring the industry's most current and complete database covering over 1.5 million items from over 550 manufacturers, **TRA-SER Premier** has the coverage you need and the features you want. Whether you need to be able to quote current prices, prepare submittals, research product information, or find product alternates, **TRA-SER Premier** is the only tool you need. And, because it runs on your PC, **TRA-SER Premier** is always available, regardless of the status of your estimating system. **TRA-SER Premier's** exciting features include automatic price updating, fast and easy item level look ups, and links to **QuickBooks[®]** and **NetPricer[™]**.

1. Improved item search options for faster lookups

2. Easy to read and sort search results and data

3. Quick and easy access to item level data

TRA-SER[®] Premier

Key Features!

- A material pricing database of 1.5 million electrical items from over 550 manufacturers
- Long descriptions with attributed content for better product definitions and easier searching
- Direct link to QuickBooks[®] accounting program
- NetPricer[™] Service Module for instant on-line price quotes from selected suppliers
- A 90,000 item cross reference feature that allows comparisons to like items when making item purchase decisions
- High quality color pictures of items and manufacturer catalog pages

Additional Features and Benefits

- Improved item list creation and manipulation
- Runs seamlessly with most major contractor estimating systems
- Additional reports such as New Item and Price Comparison reports
- Improved Import/Export Wizard
- Automated Internet price updating through a scheduler
- Enhanced search engine with drill-down look-up methods
- Target pricing for more accurate estimating
- Gives greater product information and searching capability
- Expanded database that includes new VDV (voice, data, and video) items
- Use the same pricing service your suppliers use

Recommended System Requirements

- IBM-PC compatible PC
- Microsoft[®] Windows XP[®] or Windows 2000[®] operating system
- Minimum processing power of a Pentium[®] III (or equivalent) running at 800 MHz
- 512 MB of memory or greater
- 52x CD-ROM or DVD-ROM drive
- Microsoft[®] Internet Explorer 6.0 or greater
- Adobe[®] Acrobat[®] Reader 5.0 or greater
- A minimum of 4GB of free hard disk space is recommended
- An Internet network connection or dial-up service for registration and updates. This is optional for registration, but required to obtain database updates (preferably a broadband connection, i.e. DSL, cable modem, T1)
